### Drama Friends Face Feverish Fortnight

Arlington's Friends of the Drama face a feverish fortnight, as a monthly tea, followed closely by performances in Wellesley and at the clubhouse keep the members on the go.

The monthly business meeting and tea will occupy the scene next Sunday, January 17. Mrs. Helen Bowley is chairman of the tea, and Mrs. Phillip H. Rurt is chairman of the musical entertainment. Leonard Wood will provide an instrumental ensemble and will himself play a violin solo.

"There's Always Juliet", the comedy hit by Van Druten, so successfully presented by the "Friends" recently, will journey to Wellesley on Tuesday, January 19, for presentation before the Wellesley Players, on a home and home arrangement. The same cast, including Miriam Hendrick Cahalin, Richard Guinan, C. Florence Smith and Parker Wood, will again enact the roles. The Wellesley Players return the visit on February 19, with George M. Cohan's comedy, "The Bad Man."

In the meantime the musical Friends prepare for the production of the "Pirates of Penzance", to be heard for four nights starting January 27. The annual Gilbert and Sullivan is always one of the highlights of Arlington's dramatic season. The Theatrical Ball, the climax of the Friends' social year, is already set for February 12, and a large committee has planned the event replete with many innovations which promise an even more colorful and entertaining event than any of its predecessors. Elliot Hanna, captain of the winning team in the recent membership drive, is head of the ticket committee, and is being assisted by Mrs. Warren A. Rutherford.

A sudden change in the cast of the forthcoming "Pirates of Penzance" to be produced by the Friends of the Drama at their Playhouse on January 27, 28, 29 and 30, has been necessitated, according to announcement from the organization received yesterday.

### BOARD REJECTS BELMONT PROPOSAL TO SWAP LAND

Neighboring Town Wants Village Lane Section and Large Area at Heights on Belmont Side of Highway. Exclusive of Arlmont Village.

Belmont would swap land with Arlington, but after a meeting between the board of selectmen of that town and the Arlington joint board of selectmen and public works, together with Town Counsel Paul White at the Belmont town hall Monday night, the proposition was rejected by the Arlington representatives. Since then they have presented a counter proposal and offered to meet again with the Belmont officials.

Belmont would take the Village lane section off Lake street and a large area on the south side of the Concord Highway, including the Arlmont Country Club, but not including the new Arlmont Village development. Arlington would cede a small area on the Arlington side of the Highway, just east of Lake street and at the head end of Mary street, and also the Spring street section (land between the Highway and Menotomy Rocks park.)

The Arlington officials, the Advocate understands, will not consider any proposal which would mean the loss of the expensive Village lane development.

### Dr. Keliher Speaks to Woman's Club on Youth Problem

Dr. Alice V. Keliher, chairman of the Progressive Education Association Committee on Human Relations, was the speaker at the meeting of the Arlington Woman's Club on the afternoon of January 7th, at the Robbins Memorial Town Hall. Her experience and training in dealing with children and adolescents made her well qualified to speak with authority on her topic, "What is Our Youth Problem?"

"Youth," Dr. Keliher defined, "is the age relationship between two different age groups, and the so-called youth problem begins at birth or before in the attitudes toward life of the parents and in their handling of human relationships in dealing with children from infancy."

"Pointing out that science has added from ten to eleven years to life expectancy, Dr. Keliher made a plea for the recognition of the fact that our present youth problem is not a temporary one which will be solved by a national financial recovery. The change in our social and economic world makes it imperative for us to survey our educational system with a view to adapting it to fit present and future needs. A revision and enrichment of curricula and an increase in the number of school years are essential to fit the youth of today for the world of tomorrow."

The musical program of the afternoon consisted of a group of songs by Miss Cecelia Robichaud, accompanied by Mrs. T. Gordon Smith. Miss Robichaud, a lyric soprano of much promise, is a graduate of the Arlington Schools and always finds a responsive audience at the Arlington Woman's Club.

Preceding the program, Mrs. John O. Matthews, president of the club, spoke briefly and earnestly of the preparations being made for and the aims to be accomplished by the coming drive for the Community Chest Fund. The fund is being raised to replace individual campaigns formerly made for the Boy Scouts, the Girl Scouts, the Arlington Visiting Nursing Association and the Arlington Welfare Council.

A splendid tribute was paid to the memory of Mrs. J. Q. A. Brack-

**POWER UTILITIES FACE BANNER YEAR**

By Frank D. Comerford, President, Edison Electric Illuminating Co. of Boston, and Chairman of the Board, New England Power Association.

The electric utilities of the country are justified in looking toward 1937 with optimism.

Through most of 1936 the consumption of electricity has been establishing new peaks with regularity, and we have every expectation that this trend will continue. The revival of manufacturing, particularly in capital goods, has been a very large factor in our gains. But even more important in its effect on net revenues is the increase in the use of electricity in the home.

**More Appliances**

More electrical appliances for the home were sold in 1936 than in any previous year. We expect this trend to continue because the public knows that a dollar spent for electricity buys more in comfort and convenience than a dollar spent for almost any other commodity. Although we anticipate higher costs of doing business, in labor, materials and taxes, we hope that the increase in business will offset these and provide larger net earnings, from which stockholders and consumers will benefit in dividends and lower rates.

We must note, however, that the increases in load this year were handled by the existing plant of most companies. This cannot continue as further increases in load will require additional generating facilities, and in many cases additional distribution facilities. This will add new carrying charges, taxes, etc.

**Relations to Improve**

I believe that the relations between the utilities and the regulatory bodies, both federal and state, will improve. The utilities are beginning to realize that many of the policies on which the federal government has embarked, notably the scrutinizing of security issues, the move toward simplification of corporate structures, and encouragement to economical integrating of power systems, are sound. The government will realize that the interests of consumers will be better served by coordination of existing facilities, whether privately or publicly owned, and not by wasteful duplication and a punitive campaign toward the private companies.

**Business Conditions**

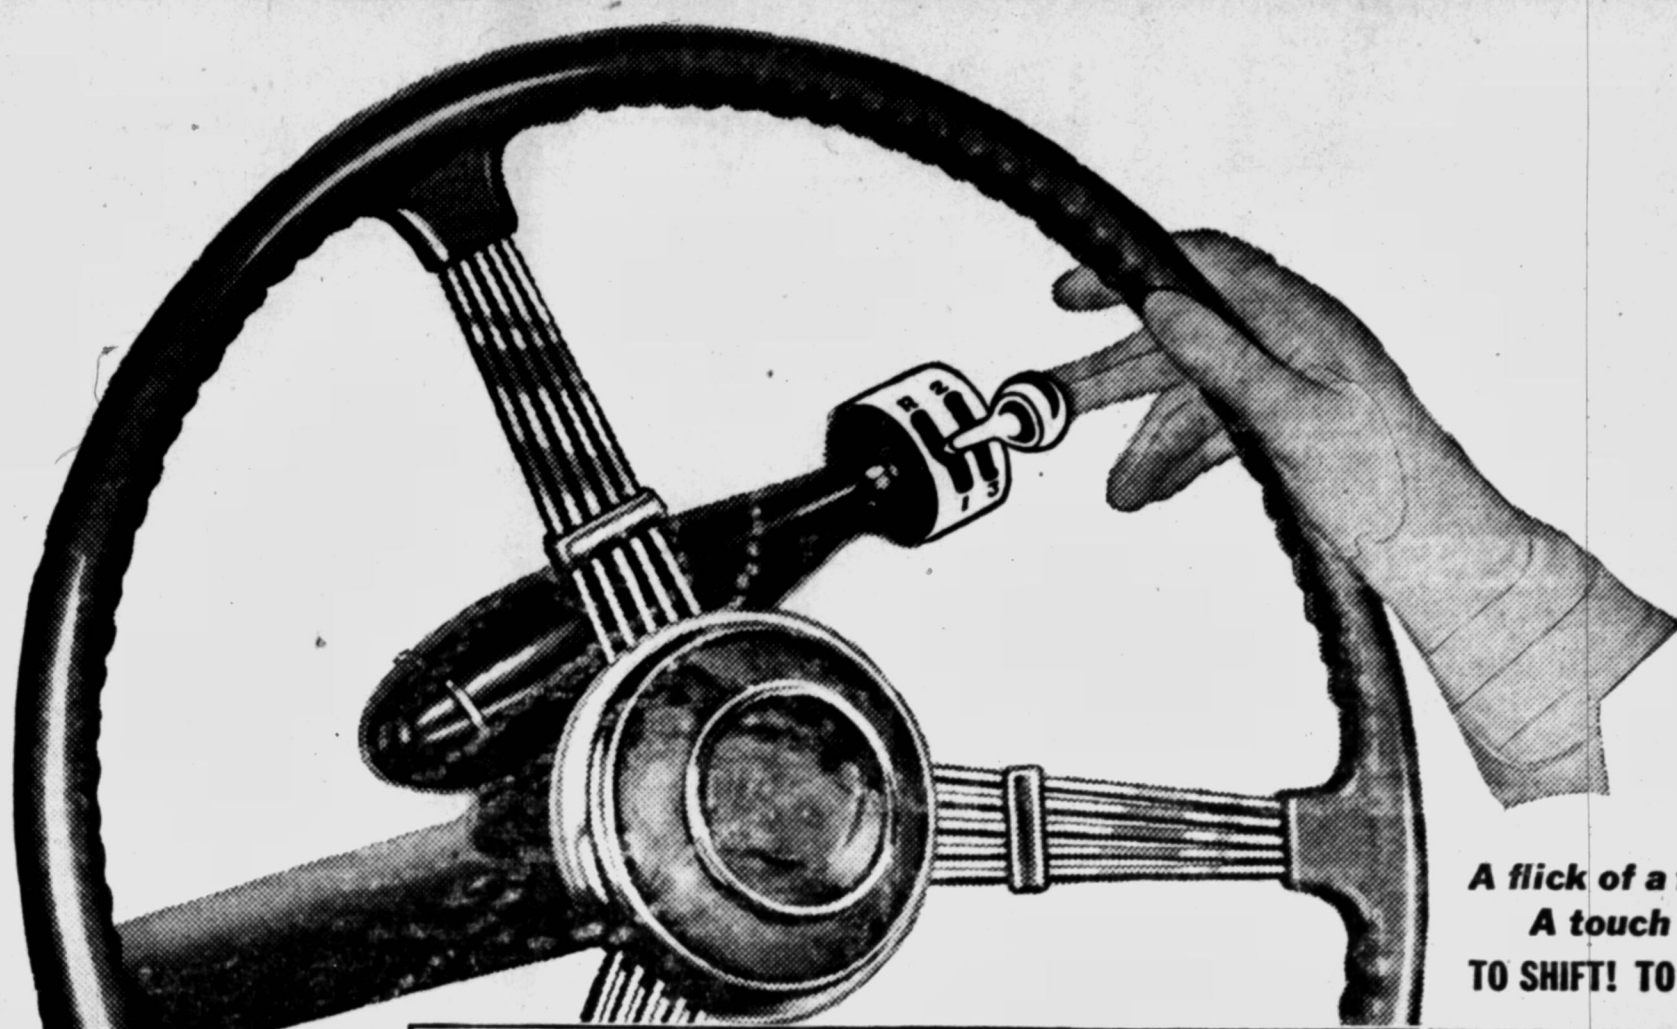

As to general business conditions, the year 1936 will go down in history as one of the crucial years. Momentous events started or accelerated forces that may change our civilization as we have known it. Most important of these is the decision of the countries of the world to arm to the limit of their ability. Next, and a cause of the first, is the rapid growth of two international blocs—the so-called Fascist state and the so-called Communist state. Possibly another bloc is developing, the American union comprising the republics of North and South America. The eclipse of the League of Nations, probably its abandonment as any effective agency to keep peace or protect the weaker nations, has become clear.

**World Rearmament**

Apparently we have seen the turn of the depression. In some measure, this may be traced to world rearment. In our country we have seen a general acceptance of the theories of the New Deal by the people. This may necessitate changes in our fundamental law structures, our Constitution, to accord with the new concept of the relations of the government and its people.

These same forces should make for great activity in 1937,—rising prices, more employment, unsettled labor conditions, greater purchasing power, unbalanced budgets, possibly higher money rates and increasing difficulty by municipalities to collect taxes and to finance.

**Overturned Truck Adds Oil to Ice on Highway**

A truck owned by the Penn Oil Company and driven by Joseph W. Plotte, 29, of 329a Somerville avenue, Somerville, skidded on the icy surface of the Concord highway, near the Cambridge line last Thursday afternoon and overturned. A large quantity of oil spilled and covered more than 30 feet of the road. Because of the slippery combination of ice and oil, the police found it necessary to divert out-bound traffic to the other side of the highway, until the State public works department had sanded the road.

In response to a call, the Cambridge Fire Department arrived on the scene and stood by prepared to act in case the 1500 gallons of fuel oil was ignited.

According to Plotte, he had made the turn around the traffic circle at the Cambridge end and was going down the slight grade when the accident occurred.

Following the accident was a discussion between the police of both communities as to whether it had happened in Arlington or Cambridge. It was finally decided that it had occurred in Arlington.

**Advertising to Play Major Role in Boom Says Roger Babson**

A note of warning to businessmen who would pull profits from prosperity is sounded by Roger W. Babson, economist and statistician, in the Rotarian Magazine.

"To my way of thinking," he says, "advertising and selling are going to play a tremendous part in the coming boom. Your sales department should be drilled into a 'prosperity psychology.' The minute the low point of a depression is reached, and the turn towards better times comes, I become bullish on advertising. This bullishness develops into a white heat as business reaches the normal line. It is in the normal zone that all the constructive forces of your organization should work and work in harmony."

Mr. Babson further urges that businessmen consider these important factors: Credits should be kept in order at all times. As prosperity proceeds there will be increasing shortages of skilled workers and executives; so investment in your personnel now should pay handsome dividends. Doing business in the prosperous days ahead without sound accounting and finance methods would be like fighting a fire with gasoline. If you must borrow, at least be free from debt one day of each year. Practical research in your business may mean the difference between profits and just breaking even.

"Strange as this may sound, less than 10 percent of the businessmen of the United States actually pulled profits from the great 1929 boom! Remember this," warns Mr. Babson, "Whereas depression hits

everybody, prosperity is always selective. Profit tickets are not passed out to all that enter the Big Tent of good times. In a period of business expansion you must work just as hard to assure profits as in a period of depression you must work hard to avert losses.

"Only four times during my 35 years of studying business conditions has the Babson-chart, on which I have spent over a million dollars in research, crossed the 'normal line' on its way upward. The first of these was in 1902-12, the second in 1915, and the third was 14 years ago, in 1922. The fourth has just occurred.

"At the start of this impending boom," he says in conclusion, "you all have a new set of books to open. This is the time when everybody starts from scratch, but some—only scratch. The way to eliminate competition is not to meet it but to keep ahead of it."

And he said unto him, Why callest thou me good? there is none good but one, that is, God: but if thou wilt enter into life, keep the commandments" (Matthew 19: 16, 17).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus urged the commandment, 'Thou shalt have no other gods before me,' which may be rendered: Thou shalt have no belief of Life as mortal; thou shalt not know evil, for there is one Life—even God, good" (p. 19).

LOCAL FIVE BEATS CHELSEA  
FOR 1st TIME IN 6 YEARS

Holds Precarious 3-Point Lead in Rough, Tense Game.  
Locals Miss Many Chances to Capitalize on Fouls. Corbett Stars.

For the first time in six years the Arlington High School basketball team defeated favored Chelsea High quintet, 26-23, at the High School Auditorium, last Friday night, in a tense, rough game in which thirty penalties were called. "Mush" Corbett, chosen captain for the game, led the scoring, with ten points.

Both teams played conservatively at the beginning, but after a couple of minutes of play, "Mush" Corbett put Arlington in the lead with a push shot basket. The lead was quickly erased as a basket by Pantano and a foul shot by Gersfield placed Chelsea in the lead. The period ended with Chelsea leading, 3-2.

The second period saw Arlington scoring ten points and limiting Chelsea to but two. Clarke opened the scoring by dribbling down the court and sinking a basket. A few plays later, "Win" Oliverio sunk a foul shot. Baskets by "Mush" Corbett and Mike Burke placed Arlington further in the lead. A long, looping shot from mid-court by Evans gave Chelsea its only points in this period. Chelsea tried many shots at the basket but failed to score, the ball bouncing around the rim and falling out. A basket and a foul shot by Oliverio closed the half with Arlington leading, 12-5.

The third period was very hectic with Chelsea climbing to within four points of Arlington. Gersfield opened the scoring by sinking a long shot. Corbett quickly followed with a basket but was fouled in the act of shooting, so received a free throw, which he sunk. Pantano sent a long looping shot swishing into the basket. Dick Clarke retaliated with two tallies. Chelsea decided to take time out. In a play from center jump, Win Oliverio took a pass from Corbett and wadded the ball through the strings. Gersfield scored, then took another shot at the basket which failed to go in, but rebounded into Pantano's arms, who gently lifted the ball into the iron hoop. "Mush" Corbett received the tap from "Long John" Cashman, dribbled in, and scored. Baskets by Pantano, Gersfield, and Martin placed Chelsea within four points of Arlington as the period ended, with the score 23-19.

The final period was a gruelling battle, with Arlington striving to protect its slim lead. After considerable amount of play, Gersfield scored with a push shot to cut Arlington's lead down to two points. John Cashman quickly recovered those points by scoring a basket. Chelsea took time out with 2 minutes left to play. When play was resumed Friedman and Gersfield scored four shots. Arlington hung desperately onto the ball until "Mush" Corbett was fouled with eleven seconds of play remaining. As Corbett sunk his foul shot, a mild disturbance was created at the scoring table by a Chelsea fan. After a few minutes, the floor was cleared, and the game continued for eleven seconds with Arlington still leading as the final whistle blew. The final score was 26-23.

ARLINGTON FIVE  
MEETS 1st DEFEAT  
OF THE SEASON

Brookline Wins, 24 to 20.  
Referee Blamed.

The Arlington High basketball team lost its first Suburban League game to Brookline High, 24-20, at Brookline, last Monday afternoon, possibly due to the alleged inefficiency of the referee. The official either failed to see, or did not want to see the various fouls committed against the Arlington players. The Red and Gray players were bumped and pushed all over the court without receiving any notice by the official. On the other hand, a Brookline player thought he had been fouled, so he went crying to the official, who promptly awarded him a free shot without having seen the foul. When the Arlington players remonstrated, Al McCoy, the worthy official, immediately called a technical foul.

Captain Mooney was high scorer for the Brookline outfit, with fourteen points, while "Mush" Corbett was high scorer for Arlington, with ten points. The summary:

Basketball Team  
Beaten by Clever  
Belmont Quintet

The Arlington High basketball team suffered defeat at the hands of a clever Belmont High quintet, 33-27, at the Belmont High gym yesterday afternoon. The size of the gym hampered the Arlington boys quite a bit, as they are accustomed to a larger court. Roughness also was a cause for the Red and Gray defeat, as two players were ousted from the game, thus handicapping the team at a critical period. "Mush" Corbett was again the high scorer for the Arlington team, getting nine points.

The game was nip and tuck throughout until the final period, when Arlington lost its two best players, Cashman and Oliverio, on fouls. Arlington led at the first period, 8-7, but Belmont tied up the score at the half, making it 14-14. Belmont had a little the better of the game and led at the third period, 24-22. Arlington scored but five points in the final canto, while Belmont succeeded in annexing nine.

## Sports Advocate

An inebriated gentleman from Chelsea attempted to promote a few fistbumps by accusing Henry Hormel of cheating in keeping time. The ironic touch of the matter was that the gentleman had one arm in a sling.

Mr. Hormel, however, treated the matter with true sagacity by completely ignoring the rowdy, thus averting a minor catastrophe.

The local quintet failed to capitalize on fourteen foul shots. These shots often win games.

The Arlington fans are still woefully weak in their cheering. The Chelsea rooters continued to cheer although their team was behind. Arlington has a winning aggregation now and the fans should show their appreciation by cheering.

Many of the spectators were disappointed because there was no dancing after the game. Dancing would certainly increase the number of spectators.

Arlington Boys on Tilton  
Winter Sports Committee

William A. Sanderson, Jr., son of Mr. and Mrs. William A. Sanderson, of 11a Lakeview, and J. J. O'Brien, son of Mr. and Mrs. Patrick O'Brien, of 52 Webster street, have been appointed to the committee for the annual Winter Carnival of Tilton Schools, Tilton, N. H., according to word just received. Both boys attended Arlington High School.

Arlington A. A. Will Strive  
For Seventh Straight Win

The Arlington A. A. will attempt to make it seven wins for this season in its game on Sunday afternoon with the Barry Club of Cambridge at Newtowne Hall, Porter square.

This is the rubber game with the Barry Club, each team winning one during the past two years. The A. A. team is probably one of the best working combinations ever to represent this organization and its recent 44-24 win over the Arlington Rangers has proved that it can win most of its scheduled games. On Tuesday night they return to the Newtowne Hall for a game with the C. J. Pickett Club of Somerville. This will be followed by dancing.

The team has now molded together and will present an intact lineup that will go far. With Lowder and Lionetta on the forward line they compare with any ever to play for the A. A.

Bowling Matches Engage  
Center Vs. East End

Bowling, a sport that has only recently taken a prominent part in the local sports section, has reached a new peak. The only competitive bowling in this town has been done either through a church league, private clubs, or business organizations. Tuesday night the Center Bowling Club engaged the East End in what is hoped was the first of a series of matches. The Heights, or what will be called the West End team, has not as yet formed a bowling team. Louis Rubbio, Manager of the Arlington Recreation Alleys, sponsored this match in the hope that people who are non-participants of any bowling team will form teams from their own part of the town and thereby further this great sport in the local community.

The Center Club scored a total pinfall of 1387 against the East End's 1361 for a scant 26-pin victory.

## High School Notes

Tuesday afternoon some interesting films of winter sports in New Hampshire were shown in the assembly hall, together with some loaned by the Canadian government showing winter sports in that country, especially in the Canadian Rockies. Between 150 and 200 students remained after school hours to see the films, which were loaned through the courtesy of William Sullivan, a teacher at Junior High West.

Miss Helen Nash, who has been out for several weeks, at one time being threatened with pneumonia while in the hospital, has now returned to her home, and is expected to be able to take up her duties again as teacher of bookkeeping soon.

## Sports Advocate

Arlington is sure living up to its reputation of having athletic teams that are first up and then down.

The High School basketballers were working together like marvls last Friday night and then they turn around and lose to two jockey teams like Brookline and Belmont.

True, the officiating of Al McCoy of Northeastern was extremely roughshod, but after all he didn't score Brookline's 24 points.

Arlington will get a chance to redeem themselves tomorrow night at the High School gym when they will tangle with Medford. Chelsea beat Medford by a few points, so on paper that means that the Lowdermen should defeat Medford also, but this corner will concede nothing after the past week's showing.

Now, back to a team that doesn't look so bad compared to others. (Not mentioning any names). The hockey team will bump into Cambridge Latin at the Garden Saturday after playing the other Cambridge sextet to a "well earned" tie.

## CROSBY P. T. A.

The January meeting of the Crosby P. T. A. was held Tuesday evening. Mrs. Thomas Semonian, president, presided and welcomed all members with a New Year's greeting from the state president. Mrs. H. Warren Murray, chairman of the membership drive which closed in November with an enrollment of 245 members, presented "The Bell Ringer," a beautiful colored picture, to Miss Burns' class for having the highest increase of membership which was 120 per cent. Miss Polk's class having 107 per cent, and Miss Walkinshaw's class with 104 per cent, were each presented with a terrarium. Miss Hamlin's class with a 91 per cent, and Miss Ryder's class with 81 per cent enrollment, were awarded honorable mention.

Mrs. Murray expressed much gratitude for the excellent work of her committee, Mrs. Frank H. Gerry, Miss Gertrude Toomey, Miss Elsie Polk, Mrs. W. V. Marston, and Mrs. Walter S. Keefe. The picture was selected by Miss Elsie Seward, the principal, and Mrs. Marion Hurd.

There being a tie in attendance, Miss Polk's and Miss Ryder's classes each received a potted plant and gold star for having the largest number of parents present.

## THE ANSWER IS UP TO YOU

When the final figures are made up, it will very possibly be found that the automobile accident record of 1936 was the worst in our motoring history—from the standpoint of injuries and property damage, as well as fatalities.

Will 1937 further "improve" that record? The answer is up to the millions who drive cars and walk our streets and highways.

We make our cars mechanically safer—and accidents increase. We apply the most advanced engineering knowledge to the problems of highway construction—and accidents increase. We stiffen our traffic laws—and accidents increase.

It is a telling commentary on our driving habits that the worst accidents involve cars in good condition operating on first-class highways under excellent weather conditions—not worn-out wrecks driving on icy pavement in a storm. There is a percentage of drivers who habitually exaggerate the "safety factor"—and the annual cost is 35,000 lives and hundreds of millions of dollars in property destruction.

The driver who steps on it—who weaves through congested traffic—who disdains traffic signals—who regards pedestrians as a nuisance to be run off the streets—this driver is responsible for mass manslaughter on an unprecedented scale. Will the American people continue to countenance his ravages?

Ed Center says he is going to sue the Advocate for libel. Don't know as we can blame him much, either. We read an item over the radio last Friday morning, which went something like this:—

"The entire production ("Pirates of Penzance") is again this year under the direction of Edward W. Center, who has presented the previous four Gilbert & Sullivan productions for the Friends of the Drama." (Very slight pause) "The Arlington police are very anxious to apprehend the gay young man who makes a practice of crashing private parties and robbing purses and overcoats . . ."

We have a grievance ourselves. Our announcer was introduced to his radio audience as "Parking Wood", which sounded just like "Parkie" over the air. Much, much too flip, we should say.

Must begin to talk about the coming town election pretty soon. As a matter of fact, excitement does not seem to be stirring itself up very rapidly. So far Ernest W. Davis, Selectman, Loren W. Marsh, member of the Board of Public Works, and John D. O'Leary, assessor, seem to have no competition for reelection.

At the moment the principal contest seems to be between Harry E. Baker, Henry E. Keenan and David A. Wilcox for the vacancy on the Board of Assessors, now filled by Mr. Wilcox, who was appointed to take the place of Earl A. Ryder, resigned.

For the first time in as long as we can remember, Daniel M. Daley will have opposition when he seeks reelection as tree warden. He has formidable competition in the person of Frank W. Wunderlich, former member of the Park Commission.

Speaking of elections, they had a red hot one at police headquarters this week, when officers were chosen for the Arlington Police Relief Association. The best part of the whole thing was the series of headline clippings which appeared on the police bulletin board along with the results of the election. The headlines ran as follows:

### ELECTION FRAUDS

### EVIDENCE PILES UP

### ON VERGE OF

### OPEN MUTINY

### AX IS SOLE CLUE

We agree with Professor Arthur I. Andrews that newspaper headlines can be and are silly sometimes. Not only that, but they can go a long way toward fomenting war. Witness the black threat which ran across the front page of one of the Boston papers recently:—

### "FRENCH ARE GOING TO OCCUPY MOROCCO"

Which is the same thing as saying that the

Dutch are going to occupy Sumatra. Under the Sultan, France has controlled Morocco for years and years, merely leasing part of the territory to Spain.

## Briefs

Germany assures France that she has no designs on Spain or her possessions. That French loan to Poland may have lifted the war cloud.

The steamship Mar Cantabrico won the race with the Embargo Act which passed the Senate, 80 to 0 and the House, 404 to 1. She sailed for Spain, willy, nilly with her war cargo. The name of Robert Cuse will not be on the country's Honor Roll.

Postmaster General James A. Farley reports a loss of \$88,316,324 in his department. The loss is 22 million greater than last year, despite an increase in postal revenues. Farley blames franking privileges of Congress, government subsidies (over sea and air) and less than cost for mailing newspapers.

James Roosevelt, 29-year-old son of the President, becomes his secretary July first. He will fill the office made vacant by the passing of Louis M. Howe. Another Roosevelt President seems in the offing.

J. Harvey Gravell, a paint manufacturer, paid off all his employees' debts as a New Year's present. In other words, a bonus of \$90,000.

"Easy-going" Governor Hurley begins what promises to be a real house-cleaning. His secretarial staff will be less than half as large as the former governor's; seventy-five in the division of liquidation of closed banks have been dropped, among them townsman Henry C. Rowland, supervisor of banks in liquidation; sixty-one clerks, stenographers and real estate personnel must seek jobs elsewhere. Apparently the Governor's economy promises were real promises.

Mrs. Franklin D. Roosevelt joins the New York Branch of the Newspaper Guild. "My Day", her syndicated contribution, appears in 59 daily papers.

Lewis Parkhurst, former state senator, would have the Legislature authorize the erection of a million dollar prison for first offenders. He would use the Concord Reformatory for hardened criminals and discard the Charlestown State Prison.

The University of Wisconsin regents vote 8 to 7 to discharge President Glenn Frank because of "incompetent administration." Dr. Frank says he was warned not to accept the presidency "because it was not the wish of the La Follette family." Politics again? The students roar their disapproval.

It is rumored that Dr. Hugo Eckener will be lured to Medford this week by Mayor Irwin with the hope that he may sell a Medford terminal idea to the German Zeppelin Transport Company.

Good news comes from Acting Secretary of State Moore who says that he feels confident that Europe will avoid another "adventure in suicide" and adds: "I am convinced that leaders of those nations, knowing what a perhaps fatal blow another expensive war would be to the fabric of European civilization, will find some common sense method of adjusting all controversies."

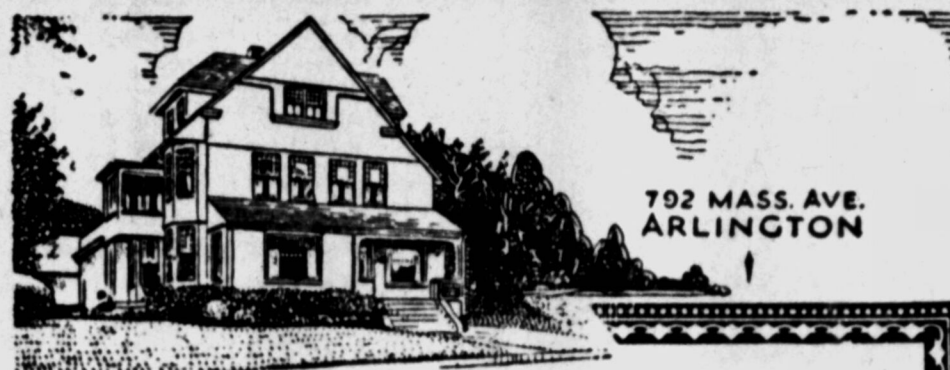

The "sit down" strikers and the police clash at the Fisher Body Corporation's No. 2 plant at Flint, Michigan. The Governor calls the National Guard.

John L. Lewis forces come to New England hoping to organize 1,000,000 non-union workers in metal trades, rubber, electrical and radio workers. The 15,000 steel wire workers of Worcester will receive first attention.

Mayflowers were picked at Bowdoin, Me., on January 10. It was warm last week in the East, while California's citrus fruit was in danger from extreme cold. Temp., 20°.

Boston W. P. A. workers plan to visit Washington this week. One hundred fifty workers from art, theatre, music and writing projects will try to convince Harry L. Hopkins that \$790,000,000, the relief appropriation, is not enough. One billion, one hundred fifty million will be requested as the workers want continued jobs at higher wages and projects continued at full strength.

Another kidnapping results in brutal murder. The beaten, nude form of Charles Mattson is found in the woods fifty miles from his home in Tacoma, Washington. Dr. W. W. Mattson made every effort to pay the \$28,000 demanded.

### Fifty Years Ago This Week

A horse belonging to the Addison Gage Ice Co., was accidentally killed on Spy Pond this week.

The recent cold snap has given employment to large numbers of men on the ponds in this vicinity.

Edw. E. Bacon has gone to Charleston, S. C., to superintend the work being done on the houses of the Boston Ice Co. in that city.

Sleighing parties through our main thoroughfare have been almost numerous enough to constitute a procession, during the evenings of this week.

The wires for the automatic railroad signal which is to do away with the objectionable "toot-toot" of the locomotive, have been run along the poles this week, and before another issue we expect that all reason for complaint at the whistling will have vanished.

There was a quiet wedding party at the residence of Mr. Charles M. Bacon, Pleasant street, Wednesday evening, when his daughter, Lillian was united in marriage with Mr. Fred S. Smith, son of Mr. S. R. Smith of Mystic street. Messrs. Charles Coburn and Edward Hill acted as ushers. The bride was attired in a dress of white surah silk, trimmed with Federa lace, and wore a bouquet of white rosebuds. The bridal gifts, which were numerous, embraced sealskin furs from her father, silver service from Mr. Smith, French clock and side pieces from Mrs. Manson, full dinner set of 200 pieces from Mr. and Mrs. Edward Hall. Dooling was the caterer.

The annual meeting of the Cambridge Horse Railroad Co. was held on Monday. From what has been industriously circulated in our streets, we had inferred that a complete revolution was at hand, and that the old management was to be unceremoniously dumped, on account of irregularities. It turned out to be a "tempest in the teapot" sort of affair, the complaints having no good grounds, and the old board of directors was re-elected by large majorities in a vote which was phenomenally large. What advantage the West Cambridge Co. hoped to obtain in securing a change will now have to be sought in some other way. The fertile and brilliant intellect of the manager of their interests will be sure to devise some equally efficient plan. The horse railroad track will eventually be placed where it belongs—in the middle of the street.

The question of town officers is being quietly discussed.

### Twenty-Five Years Ago This Week

Miss Davis, the District Nurse, has been one of the many victims of gripe.

Supt. of Streets Vesper has adopted horse-back riding in performance of his duties as inspector and overseer.

People will not be surprised to learn that ice on Spy Pond has made rapidly during the past week and is now over ten inches in thickness.

On page four will be found the article on the acceptance of the gift of a \$200,000 Town House, a picture of the same, and matter of interest relating thereto.

Our local caterer, Mr. N. J. Hardy, supplied tempting viands and fine service at an important Masonic function in Boston, Monday evening. He received many compliments from men familiar with good catering.

Principal Mitchell of the High school, has occupied some of his time this week interviewing teachers to fill the vacancy at High caused by the resignation of Miss Marguerite McIntosh, who has taught here since 1909, in the English department. She has made many friends here by her charm of personality and her rare gifts as a vocalist.

One of our lady friends, who is an enthusiastic supporter of the Symmes Hospital, wants us to tell all our readers that the hospital is not nearly so inaccessible as people imagine it. She said she reached the hospital on Sunday in eighteen minutes. She took the electric car from Water street to Grove and then walked the rest of the distance. It was not a time waster, but the thought occurred to her, after reaching the hospital, to see how long it had taken and her record was eighteen minutes.

Miss Minnie Schofield, of 283 Broadway, left for New York, Wednesday, via Fall River Line, to visit her friend, Mrs. Warren L. Russell. Her hosts of friends in Arlington hope the weather will favor her, that she may enjoy the many excursions and good times planned for her.

The Teacher's Club held its monthly meeting in Cotting Hall, High School, Tuesday evening, and enjoyed a novel entertainment. Each of the schools of the town was represented in a charade. The exceptional feature of the program was an original arrangement of Dickens' "Christmas Carol," finely given by the 8th grade of Cutter school, under the direction of Miss Moffett. Selections from Victor furnished musical numbers and refreshments were served.

Monday morning was bitter cold. Mr. Rodney T. Hardy said it was of an intensity harder to bear than the twenty degrees below zero at Minneapolis where he was the Monday previous. Cold takes on an additional sting on the New England coast and there are few places in our latitude much colder.

### THE CUSTOM OF WEARING TALL HATS

[From the Arlington Advocate, 1887]

The other night in one of the theatres a lady with a tall hat that completely obstructed the view came to a seat in front of an elderly gentleman, who courteously leaned over and addressed her escort: "If your lady does not remove her hat so that I can see the stage I shall have to leave the theatre." The other curtly replied that she would not, whereupon the complainant rose and went to the box office and demanded and received his money back, the manager agreeing with him that he could not enjoy the performance under the circumstances. It happened that the next evening the trio met in society and became acquainted, when the lady confessed that she would have removed the obstruction from her head if she could have done so. "Could have done so?" queried the gentleman. "Yes," responded the lady. "You see these tight fitting jackets and waists prevent our raising our arms. In dressing we put on the hat before the jacket or waist, as we could never get them on without the assistance of a maid." The gentleman gallantly observed that he was sorry he had spoken.

If the custom of wearing these tall hats by the ladies attending theatres is continual there will un-

questionably be trouble between escorts and those who are debarré the pleasure of witnessing the performance by the obstruction. A row nearly occurred the other night in the Bijou opera house because of a remark made by the unlucky man in the rear seat. In this instance, however, the lady considerably told her escort that if he could pull out the pip he could remove the hat, which was speedily done.—New York Times.

### MacDonald Property Damaged by Fire

Slight damage was done by fire last week-end in a 3-story building at 1277 Mass. avenue, owned by Mrs. Angus McDonald of 32 Scituate street. The first floor is occupied by Archie Crosby, his family, and Louis Bean; on the second floor by Emily Bean; and on the third by Hobard Sandborn. The fire was caused by a defective chimney.

### Engagement Announced

Mr. and Mrs. George Washington Simpson of 6 Brattle terrace, have announced the engagement of their daughter, Mildred Dorothea, to Joseph Dotalo, son of Mrs. Samuel DeMeyo of 111 Howe street, Framingham.

A graduate of the Arlington schools and Burdett College, Miss Simpson attended Faelten Piano School and continues to pursue her interest in instrumental music. She is in the employ of the Advertising Department of the American Mutual Liability Insurance Company.

Mr. Dotalo, who was graduated from the schools in Brooklyn, N. Y., where he formerly resided, is an electrical engineer.

—Mrs. Sarah A. Spiller of 66 Alpine street is confined to her bed.

## ARLINGTON HAD GROWING PAINS, TOO

THE GROWTH OF SOUND, CIVIC HEALTH: TEMPERANCE

By Mary F. Clarke

As in a person, a town's virtues develop and strengthen slowly and through constant vigilance. Attitudes and means change: the evolution is slow and sometimes barely perceptible.

In one of the several ways the Arlington Advocate has helped us grow is in an unremitting policy for no-license. Undoubtedly many individual citizens through the weight of their personal influence brought the goal nearer. That is a truth we are happy to accept. But we must concede the power of the press: the spoken word and the printed word in marked contrast; in the end it is the recorded or printed word that travels over the globe and down the centuries. We speak of a small sector in time, only 65 years the life-time of our local paper, but it is a span of life in which tremendous things can be accomplished and tremendous things are being accomplished right along.

From 1872 to 1886 the town was, now no-license, now license, in a mercurial shifting from one to the other. However, in 1892, the point that I have reached in indexing, there had been six consecutive years of freedom from the legalized saloon in Arlington—and its twin

of economic prosperity—for the two are prone to be born together.

In the very early days our town had a (sobriquet) nick-name that was far from dignified: it was "Drunken Menotomy" and the records show there was ample justification for such a title.

With the succession of Mr. Charles S. Parker to the editorial chair, a steady, consistent campaign was waged against the dispensing of liquor licensed and unlicensed. Every incident that had any bearing on the question was cited. Evidence was slowly piled up; it was astonishing how many serious fires, accidents, crimes could be traced directly to the use of liquor. The machinations of the license interests were convincingly exposed. It was an excellent piece of journalism. Jones of the New York Times made use of the same persistent policy against Boss Tweed and Tammanyism with what result we all know: the victory was complete. The Advocate had the support of the churches. The St. Malachi Total Abstinence Society, the Reynolds Reform Clubs, and the Women's Christian Temperance Union, this latter with especial intelligence and understanding, all stood by, and in this case, likewise, the victory was complete.

JOHN GRUBER MARRIED  
IN LA CROSSE, WISCONSIN

Mr. and Mrs. Thomas Peter Thompson of Southborough have announced the marriage of their daughter, Dorothy Caroline, to John Frederick Gruber, son of Mrs. G. Franklin Gruber of this town. The ceremony was performed on the second day of January at the Episcopal Church in La Crosse, Wisconsin, where the couple now live at 1141 Main street. La Crosse is Mrs. Gruber's girlhood home. John Gruber left Arlington last fall to take a position as instructor of music in a private school and as a piano soloist in one of the broadcasting stations of that city.

The former Miss Thompson, who taught at the Applewood private school at Framingham, met her husband-to-be at the Preston House in Swampscott, where he was piano soloist last summer. She is the niece of Mrs. Hills of Northampton, an intimate friend of Mrs. Calvin Coolidge.

"OBSERVANT CITIZEN" WRITES  
OF ARLINGTON FOLK

The following item was taken from the "Observant Citizen" column in the Boston Post of January 9th:

"Speaking of remarkable old New England folk, Augustus F. Howell of Arlington writes me that his step-mother, Mrs. Martha Howell, will observe her 97th birthday anniversary today at the Masonic Hospital at Shrewsbury, where she has been for eight years due to a broken hip from a fall.

"A friend at the hospital says: 'Mrs. Howell is still able to be up and dressed every day and enjoys fairly good health. Her mind is active on most subjects.' 'I have received a very charming and optimistic letter from my old friend, Mr. Howell, who is himself on my honor roll of well-known old New Englanders, and who will complete his 85th year on the 14th of May. He still writes for various publications.'

INDIAN APPRECIATION  
PROGRAM FOR WOMAN'S UNION

The Woman's Union of the First Baptist Church met in the chapel Monday afternoon. Coffee was served in the Ladies Parlor at 2 o'clock by the Bartlett Avenue Group. Mrs. Helen Alsen and Mrs. Roland Norton were Chairmen, assisted by Mrs. Herbert Munroe, Mrs. Arthur Landers, Mrs. Harry Smith and Mrs. L. E. A. Smith.

The president, Mrs. Willard Wallace, was in the chair. Mrs. Herbert Munroe conducted the devotional period, reading scripture in regard to Christian friendliness and offering prayer.

The subject of the afternoon's program was "Our Oldest Americans," which was presented by Mrs. A. L. Lamont, chairman of the program committee.

The members taking part in the round table discussion in the Indian setting, were Mrs. Verna Brown, Mrs. Isabelle Scheibel, Mrs. Mabel Place and Mrs. Helen Alsen.

It was all extremely interesting as one listened to the many touching truths in regard to the American Indian.

The program was interspersed by

the playing of Indian lyrics on the piano by Miss Ruby Cowan. Her selections were "Indian Summer" by Victor Herbert; "Indian Love Song," by Frimel, and "The Warrior's Song," by Heller.

Two selections were played on the organ, which were "Land of the Sky Blue Water" by Cadman, and "By the Waters of Minnetonka," by Lieurance.

A member of Mrs. Lamont's Sunday School class gave the Indian version of the Twenty Third Psalm, which was very inspirational.

The meeting closed with the Mizpah benediction.
